

The Primary PE and sport premium

Planning, reporting and
evaluating website tool

Updated September 2023

Commissioned by

Department
for Education

Created by

This template can be used for multiple purposes:

- It enables schools to effectively plan their use of the Primary PE and sport premium
- It helps schools to meet the requirements (as set out in guidance) to publish information on their Primary PE and sport premium
- It will be an effective document to support Ofsted inspections enabling schools to evidence progress in Physical Education (PE) and evidence swimming attainment, which forms part of the PE National Curriculum. We would recommend schools consider the Intent, Implementation and Impact of any spend, as examined within the Education Inspection Framework.

It is important that your grant is used effectively and based on school need.

Schools must use the funding to make **additional and sustainable improvements** to the quality of the PE, School Sport and Physical Activity (PESSPA) they offer. This means that you should use the Primary PE and sport premium to:

- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- Develop or add to the PESSPA activities that your school already offers.

The Primary PE and sport premium should not be used to fund capital spend projects; the school's core budget should fund these. Further detail on capital expenditure can be found in the updated [Primary PE and sport premium guidance](#).

The Primary PE and sport premium guidance, outlines 5 key priorities that funding should be used towards. It is not

necessary that spending has to meet all the key priorities, you should select the priorities that you aim to use any funding towards.

Although completing this template is not a requirement for schools, schools are required to publish details of how they spend this funding. Schools must also outline what the impact this funding has had on pupils' PE and sport participation and attainment and how any spending will be sustainable in the future. **All funding must be spent by 31st July 2026.**

The Department for Education has worked closely with the Association for Physical Education (afPE) and the Youth Sport Trust (YST) to develop this template and encourages schools to use it. This template is an effective way of meeting the reporting requirements of the Primary PE and sport premium.

Review of last year's spend and key achievements (2025/2026)

We recommend you start by reflecting on the impact of current provision and reviewing your previous spend.

Activity/Action	Impact	Comments
K12: - to have as many children active in all aspects of the curriculum - to promote physical activity around school - to investigate the links between physical activity and academic attainment - continue to work with, and develop, the impact of the Sports Crew	- children are positive about PE and its place in their routine. Monitoring in March 2026 showed children have high regard for PE and enjoy the lessons. They were able to say what they were doing well and what they could do to improve. They felt ably supported by adults in the school. - After school clubs continue to be well-attended and in some cases over-subscribed. Our aim of having all children attend a Carre's Friday Festival event was almost achieved (see participation tracker). All children are more active due to the Daily Mile which is done frequently - children regularly demonstrate our curriculum drivers in PE: resilience (improving at the daily mile), collaboration (success in team events at competition level), curiosity (improving own performance through choosing the best tactics or equipment). - The Sports Crew organised a range of activities at lunchtimes which were timetabled to target children who found PE challenging. Children enjoyed attending the activities and developing team work skills.	Staff confident teaching most elements of the PE curriculum. Staff inspire and model skills so that children can do their best (eg running club hosted by a TA). Staff (current and ex) provide a wide range of after school clubs so children have multiple options each night. The impact of the Sports Crew is notable helping children in Years R to Year 3. We were proud to have won the Gold League participation award from our Outreach providers. Our commitment to school PE and sport is high on our agenda and it is great to see this acknowledged beyond the school.
K13: - to continue to develop the self-confidence of all staff in teaching PE through CPD and shared	- Staff have attended CPD sessions and are using the GetSet4PE resource to improve ideas and delivery. Monitoring in March 2026 showed all lesson visited to be of a high	Staff consistently show a positive approach to PE lessons. Those who

practice - for all staff to be competent in teaching their PE curriculum - for all staff to develop their ability to plan progression effectively - to broaden staff experiences of lesser known sports - for all staff to develop their ability to assess accurately to assist accuracy of future planning	quality. These included a dance lesson in Reception which showed a great understanding of the pupils' individual needs so that all were engaged and a Year 2 ball skills lesson which had excellent instruction and skill demonstration by the teacher allowing all children to progress using VAK prompts. -assessment statements in GetSet4PE plus the National Curriculum expectations allow staff to make accurate assessments which lead to informed planning. Clear progression from Y1 to Y6 was seen when monitoring with the overview guidance adhered to (KS1 foundation of skills, LKS2 aesthetics and UKS2 tactics). -the school is well resourced to teach all areas of the curriculum effectively. All intended areas for improvement have been achieved.	perceive that PE is not a strength have enjoyed working with the Sports Outreach Coach. Her guidance and modelling has been invaluable to our staff. Monitoring of PE shows high levels of engagement and good progression of skills. Outcomes in competitions showed our resilient nature winning all events except the tag rugby and netball.
KI1: -all year groups have timetabled PE for at least 2 hours a week - daily mile for each class - Active English/Active maths lessons as part of the curriculum - additional physical days (eg Camo Day, Sports Games Day, Sports Days etc) - Sports Crew who plan active sessions at lunchtime - provide additional swimming sessions for non-swimmers - track children's participation through participation tracker tool - engage in Carre's Friday festivals for children to experience non-competitive and competitive sporting opportunities.	-All PE lessons are delivered in line with entitlement -Daily Mile continues to go ahead ensuing all children receive exercise and the ability to improve their times -with our improved outdoor areas more children are being given opportunities to learn outside. -the Sports Afternoons and Camo Day went ahead as planned -Sports Crew led lunchtime activities for Yrs R to Y3. All children from these classes were timetabled to attend. -Year 3 went swimming and then the non-swimmers, starting with Year 6. From this more children were able to swim 25m by the end of Year 6 in their preferred stroke. - The school took part in Bikeability again this year with all children passing level 1 and 2. Bikeability is booked for Year 5 next year (October 2026). -Our participation tracker was completed by our ASCO. This demonstrates that a high percentage of our school population took part in competitive or no-competitive activity through the year. -we attended 97% of Carre's organised activities (only missing 1 due to other commitments); Subject lead attends the PE conference and SADO meetings to engage with schools locally. -We were awarded the CGS Outreach Gold Cup Champions 2025/2026 for finishing top of the league for participation and success for the second year running. -Overview completed and amended for 2026-2027.	Use of PE funding to open up non-competitive and competitive events has been a good use of funds. Not all children are ready for competition but want to take part in sports against other schools. This helps boost self-esteem and the thinking that they might want to have another go at it in the future.

Key priorities and Planning 2026-2027

This planning template will allow schools to accurately plan their spending.

Action – what are you planning to do	Who does this action impact?	Key indicator to meet	Impacts and how sustainability will be achieved?	Cost linked to the action
To continue to consolidate and embed teachers' subject knowledge so standards are at least in line with National expectations. To develop skill acquisition in more challenging tasks to ensure safe practice, aesthetics and high productivity. To further promote and celebrate sporting achievement in the school and positively acknowledging participation at any level. Improve children's leadership qualities in lessons and promoting physical activity and sport in the school Continue to build on the swimming provision by using funding for top up sessions and sourcing other grants to help with costs for class teaching in curriculum time	- Teaching staff in PE lessons - PE lead in accessing Carre's provision - PE lead/PE Gov/Sports Crew in developing the environment (eg displays/information board/community mag) -positive interpretation of GetSet4PE targets and recommended activities. -teachers in PE lessons -PE lead / Headteacher to drive a culture of participation. -Sports Crew representatives - teaching staff in PE lessons -PE lead for guidance and support of staff team -Carre's Outreach staff; work with Carre's Outreach Service: weekly ASCo to guide, advise and lead PE lessons where the need is (4 classes per week) -PE lead	Key indicator 3: Increased confidence, knowledge and skills of all staff in teaching PE and sport Key indicator 2: The profile of PESSPA being raised across the school as a tool for whole school improvement Key indicator 1: The engagement of <u>all</u> pupils in regular physical activity – Chief Medical Officers guidelines recommend that primary school pupils undertake at least 30 minutes of physical activity a day in school	More pupils meeting their daily physical activity goal, more pupils encouraged to take part in PE and Sport activities. Children see the benefits of an activity programme on health Need to ensure more classes are doing the daily mile when they can. PE curriculum is fit for purpose and is enhancing children's opportunities through confident and competent staff delivering well-pitched, challenging lessons. By working with an expert (Carre's) and having the structure of GS4PE, staff should develop confidence and knowledge moving forward Keep the participation tracker up-to-date to target individual children or cohorts if they are not represented at check points.	£9,800 for Carre's provision (full year, PE premium dependent) £1,500 for swimming (PE premium)

Swimming Data

Meeting National Curriculum requirements for swimming and water safety.

Priority should always be given to ensuring that pupils can perform safe self-rescue even if they do not fully meet the first two requirements of the National Curriculum programme of study

<u>Question</u>	<u>Stats:</u>	<u>Further context</u> <u>Relative to local challenges</u>
What percentage of your current Year 6 cohort can swim competently, confidently and proficiently over a distance of at least 25 metres?	93%	<i>Children have accessed swimming provision throughout their time at Navenby. In the Summer term 2026, we took 4 Y6s as part of a top up swimming group. 2 of these were able to swim the required distance after these sessions.</i>
What percentage of your current Year 6 cohort can use a range of strokes effectively [for example, front crawl, backstroke, and breaststroke]?	86%	<i>Many of our children attend swimming clubs and in our swimming lessons backstroke and front crawl are focused on so they are proficient in these strokes. Only the 4 who had top up lessons can't swim two or more strokes</i>
What percentage of your current Year 6 cohort are able to perform safe self-rescue in different water-based situations?	0%	<i>All children are taught to get themselves safely in and out of the pool and how to tread water. Unfortunately, we have not been able to cover all self-rescue due to costs and pool availability. There will be some children (eg those who attend swimming clubs) who can do this but we haven't been able to assess this in our sessions.</i>
If your schools swimming data is below national expectation, you can choose to use the Primary PE and sport premium to provide additional top-up sessions for those pupils that did not meet National Curriculum requirements after the completion of core lessons. Have you done this?	Yes/No	<i>We took a group of 24 children in years 4 – 6 to 6 top up sessions in the summer term.</i>
Have you provided CPD to improve the knowledge and confidence of staff to be able to teach swimming and water safety?	Yes/No	<i>We do not have access to a pool at school and so we use a local leisure centre. They provide all swimming instructors and lifeguards for our sessions.</i>
